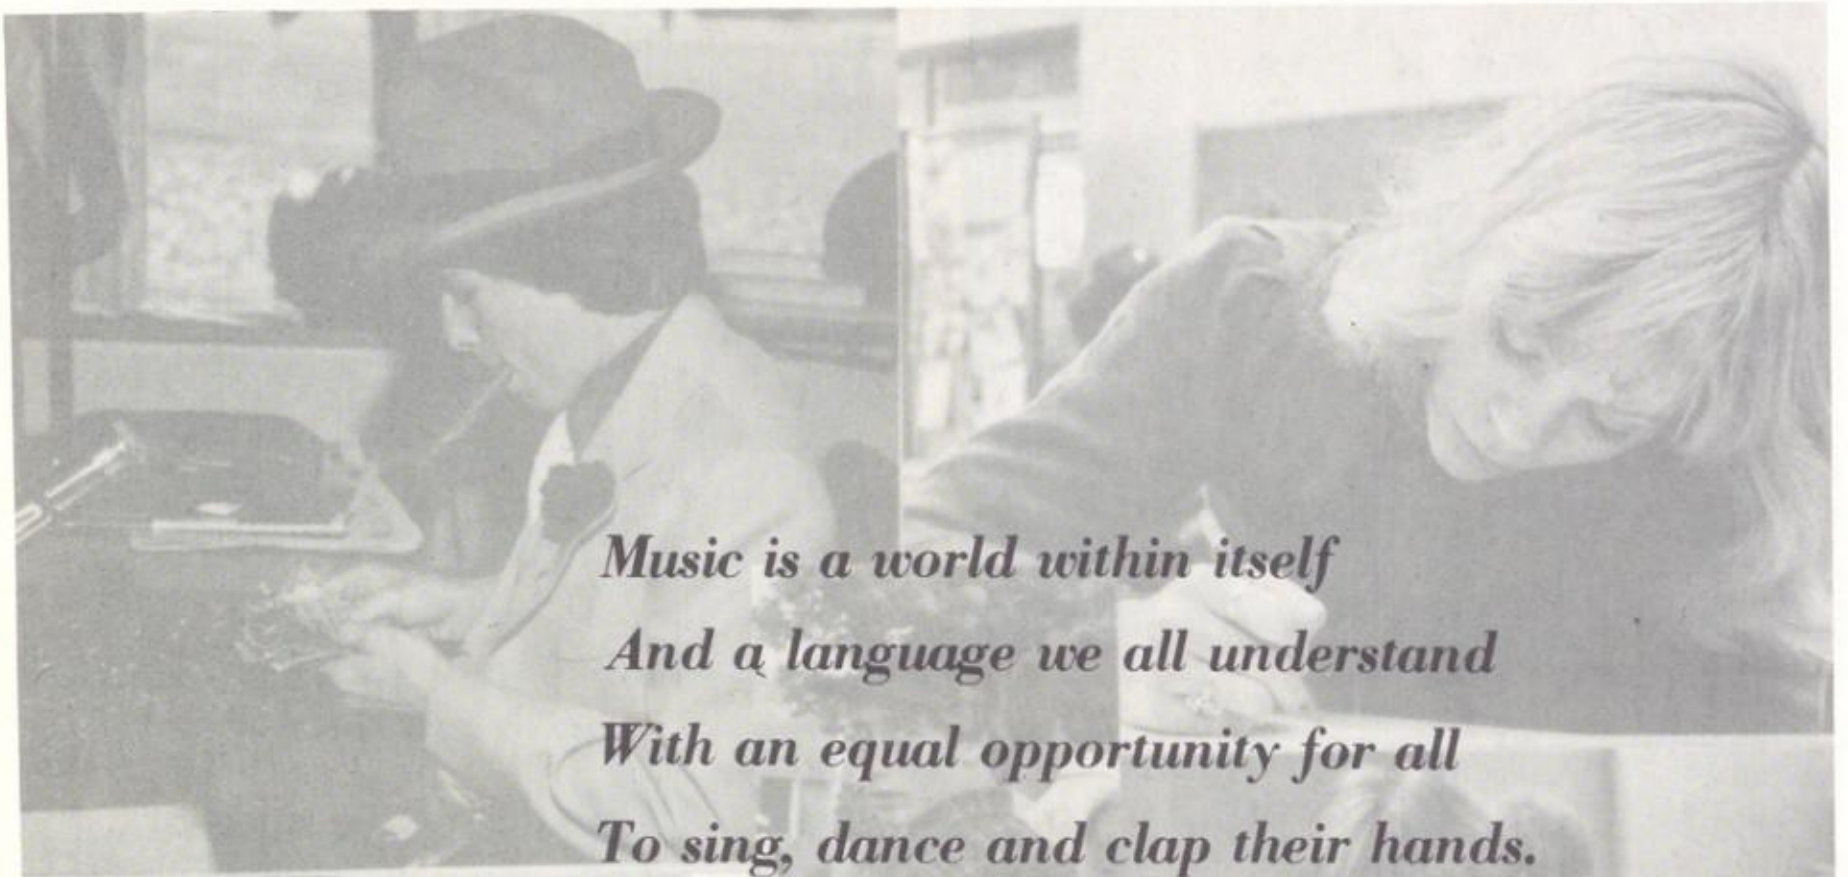
SONGS IN THE KEY OF LIFE

1981

Rollcall 1981

Farmington High School

Farmington, Michigan



Music is a world within itself
And a language we all understand
With an equal opportunity for all
To sing, dance and clap their hands.
Just because a record has a groove
It don't make it in the move.
You can tell right away at letter "A"
When the people start to move —
They can feel it all over
They can feel it all over, people
They can feel it all over
You can feel it all over

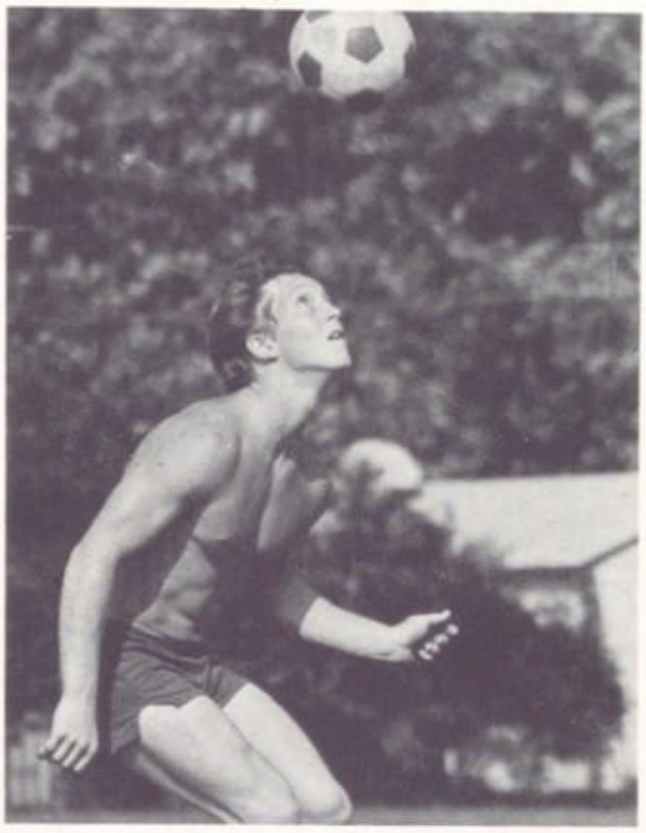
— Stevie Wonder

"Hearing 'Bolero' from the johns when Pat Rapin is in there!

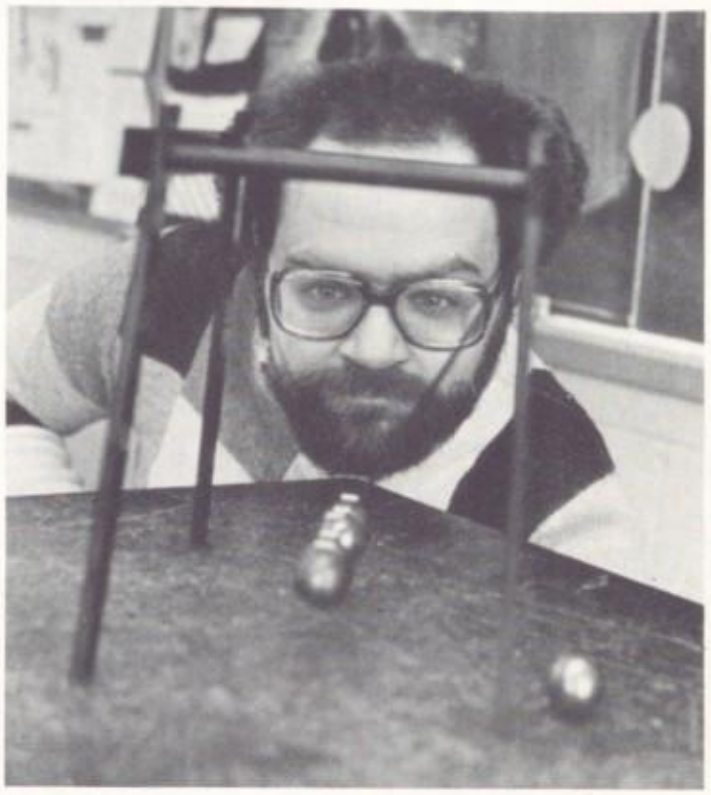
"Brings you up and out of the conventionalism; that much closer to bliss."

"Makes the beer go down easier."

"Reminds me of the past, words evoke memories; situations."

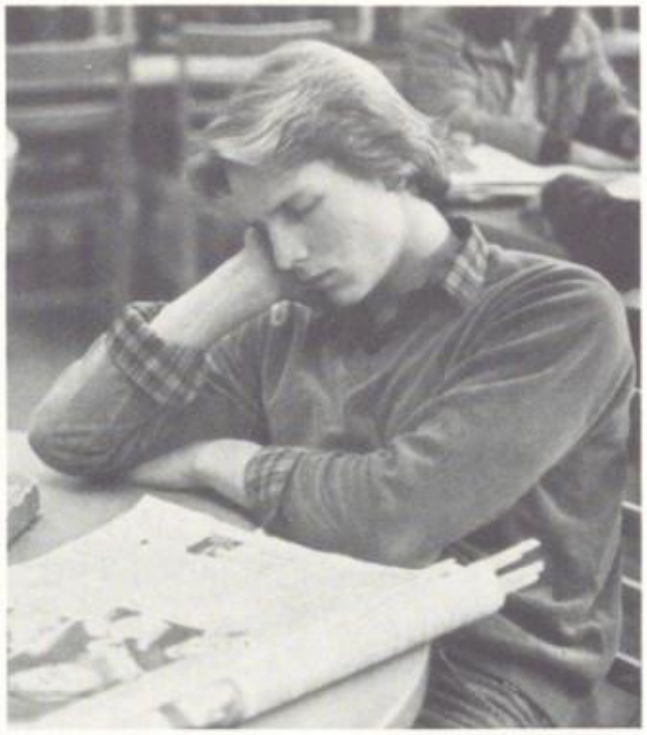


"A way to escape."



"Without music a lot more people would go crazy!"

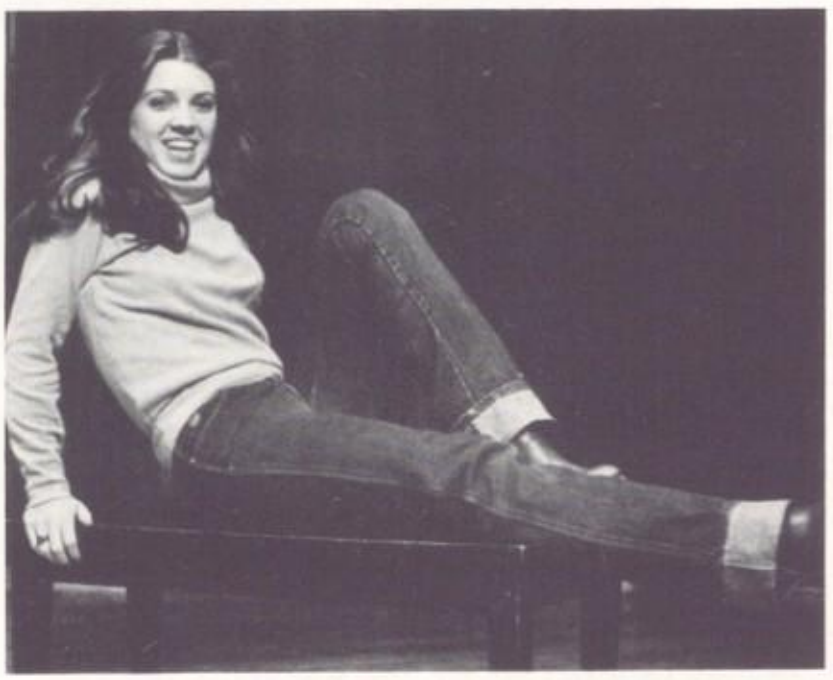
"Music is a world for dreamers."



"A self expression"

"What people listen to expresses what they are."

"It's a phrase:
Look what's happening out in the streets /
Got to revolution /
Hey I'm dancin' down the streets /
Ain't it amazing all the people I meet."



"Makes you feel good about yourself and about life."

"Opens the door to all drugs."

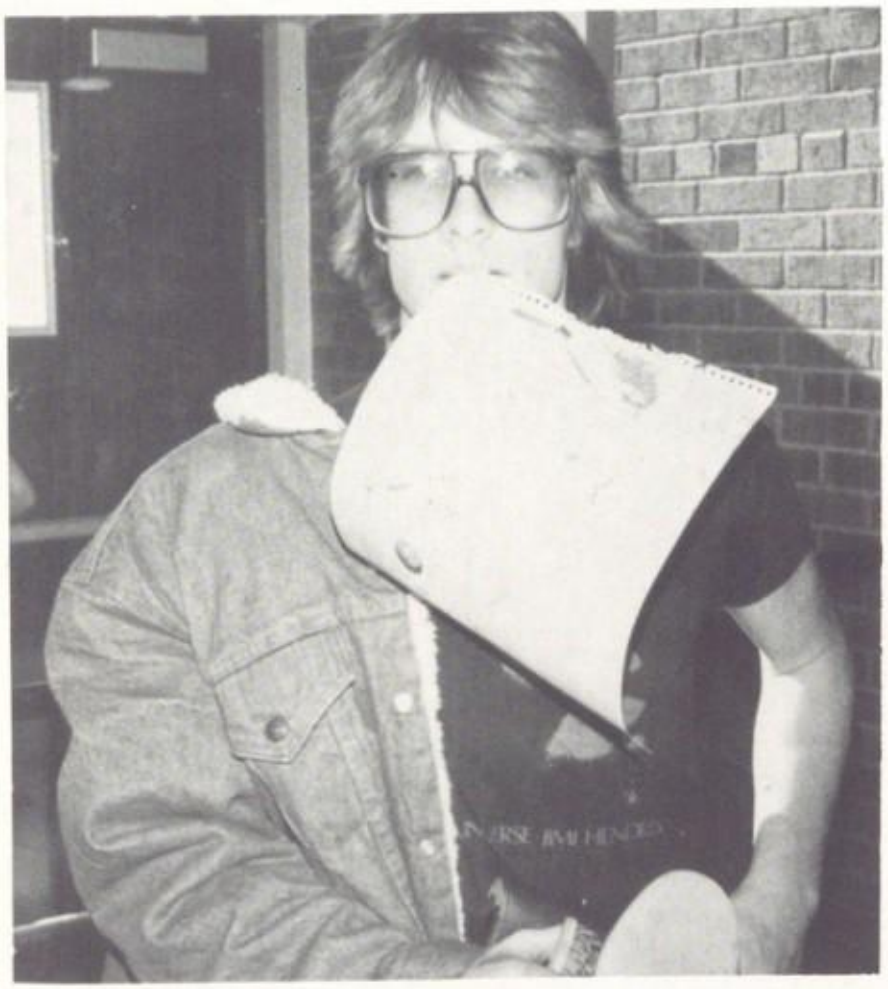
"The very survival of the human race. It creates moods, describes feelings, motivates ideas and frees minds."

"Turn up the jams brothers and sisters! It's rock and roll!"

"Confines the imagination."

"Come's right out and says what people who aren't artists won't"

"Gives you a natural high"

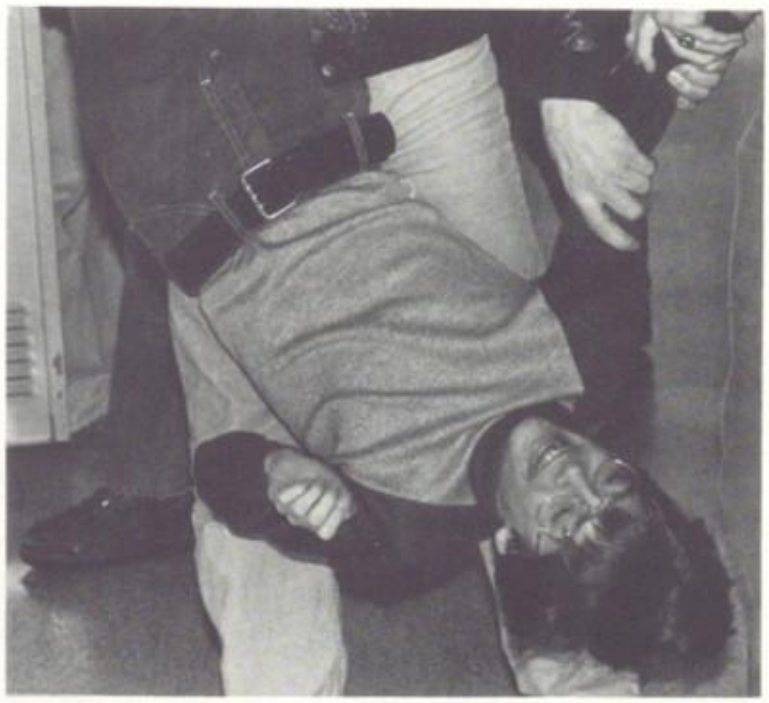


"Music can motivate, yet it also can be used as a way of escape; something to hide inside of and let it live for you."

"When I think of punk rock I think it's a communist plot to overthrow the world!"

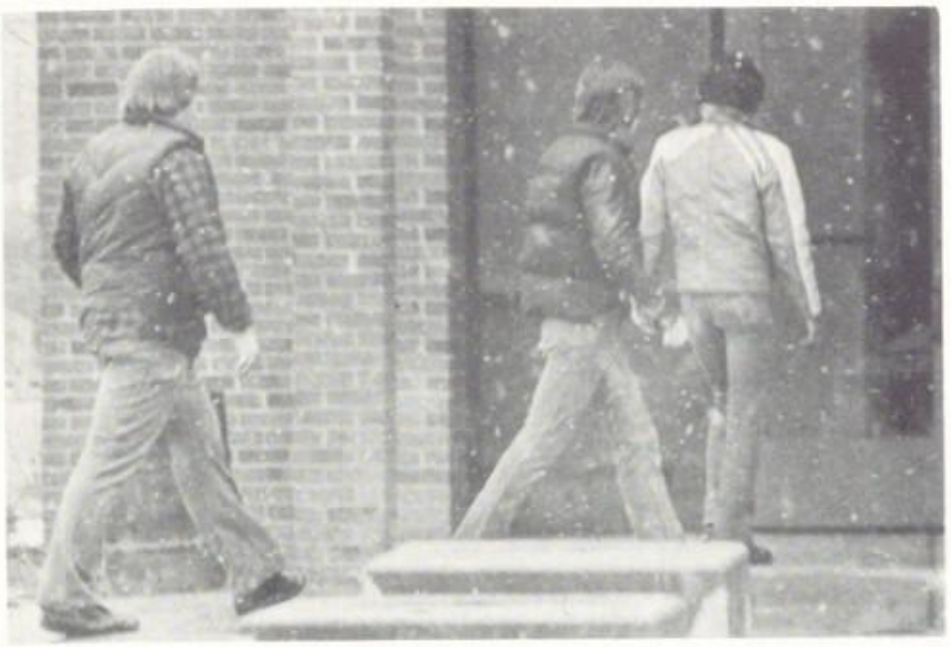
Music is an art.

Classical rock – Innovative and bizarre.



Lets you grasp reality.

Happiness, like a sunny day, makes me think of beautiful things.



Music can motivate; yet it can also be used as a way of escape. Something to hide inside of and let it live for you.

Music can teach, even those who shut their eyes to knowledge.

Makes you depressed; reminds you of the past.

Lets you see through the window of reality, (and freedom tastes of reality)

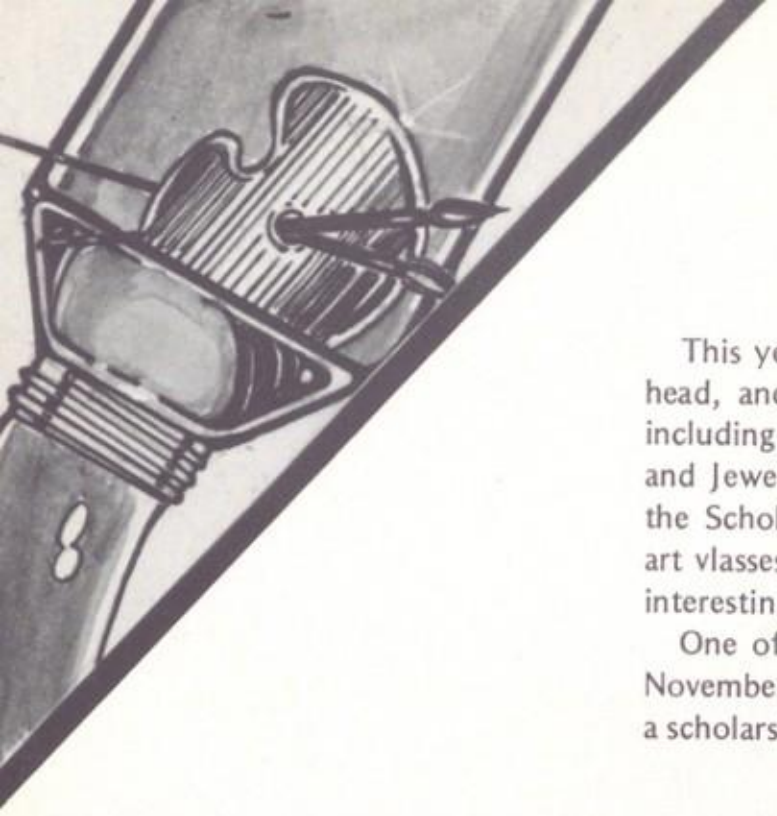
TEACH YOUR CHILDREN

CROSBY, STILLS, NASH

Teach your children well, their parents hell -
Will slowly go by. And feed them on your dreams -

The ones they pick, the one you'll go by.
Don't you ever ask them why — if they told you,
You would cry. So just look at them and sigh -
And know they love you.



Mall Displays Art

This year art truly was the triumph over chaos as Mrs. Kaufman, department head, and Mrs. Hefferman taught a complete program of interesting classes including Fundamental Art, Drawing and Painting, Commercial Design, Ceramics and Jewelry Design. Many of the classes displayed their artwork in February at the Scholastic Art Awards Competition in Tel-Twelve Mall. As every year, the art vlasses took a trip to the Institute of Arts in Detroit to take a look at some interesting and exciting art work.

One of the outstanding artists at FHS this year was Heidi Emerling. In late November she entered a college program for outstanding artwork, the prize was a scholarship to a university specializing in the Arts.

Fun Speaking

The Language Department is doing something new this year. It has started a language club, which consists of language and exchange students.

The Language Department provides a better understanding of foreign countries as well as teaching the language.

Most language students agree that learning a foreign language is fun, educational, and a good opportunity.

The T.O.P.S. program gave students on-the-job experience. Employers respect these classes because the situations are true-to-life. The classes offer secretarial skills and word processing.

The most popular business course with seniors was Accounting because the accounting field continues to offer many job opportunities.

The course was taught by Mr. Collins, head of the Business Department.

The English Department expanded and changed their curriculum this year to include Fundamental Skills and Introduction to Literature for the ninth graders, and Composition for the tenth graders. The Department also had three new teachers, Mrs. Lamos, Mrs. Martin, and Mrs. VanHorn.

The English Department has worked to get their classes more organized. They are putting certain minimal requirements on English class. This means that no matter whom a student takes for a certain class, he will cover the same material.

So even with the large class sizes, everyone still had the opportunity to learn something used all the time; English.

There are seven teachers that make up the department and they offered a variety of courses including Woods, Auto Mechanics, Drafting, Graphic Arts, Electronics, Welding and Machine Shop. Many contests took place in March and April for the various Industrial Arts such as Drafting, Graphic Arts and Electronics. Mr. Klenczar headed the department.

Home Economics teaches boys as well as girls how to cook and sew. It teaches about families and how to get along within them and also about living in the world.

The main goal of the Home Economics Department is to prepare students to live in the world and cope with its challenges.

Basics Taught in Health

The Nursing Department has three different health classes. They are Nursing Assistant, Orderly I and II, and Health Careers. The teachers are Mrs. Grysh R.N. and Mrs. Poland R.N.

Nursing I and II teach the basics of nursing. The newest addition to the curriculum, Health Careers, deals with all the careers in the Health field.

The students listen to speakers and explore the various professions. The students do research and study other medical facts.

For people interested in the health fields, these classes are a good way to see how deep their interests lie.

Feel Like a Number

Bob Seger

The Math Department plays an important role in the life of a student. We all use math not only in school, but also in our daily lives.

Math is sometimes hard but the Department did what they could to help. They put in some computers in addition to the ones they already had. These computers could be programmed both to help figure out problems and also to play games.

The Math Department was also working on getting the math classes more uniform, so that all the different teachers that had the same subject were all teaching the same thing at the same time.

So the Department really did try to make an unavoidable subject easier to learn and more relevant.

Koltz is Prime Find

Farmington High School's choirs had a new director this year, Mrs. Koltz from Power Junior High School. Her goals were to have the best choirs in Farmington.

This year the choirs were much larger than last year. They had an all-choir Choral Concert, which included choir's from Harrison High, North Farmington, and Farmington High School. It was held at Harrison and the price of admission was two pieces of fruit to be given to old folks.

With more students, better music and more spirit and willingness, Farmington High Schools choirs were better than ever this year.

This year the Farmington High School bands, which consist of four bands and an orchestra, were bigger than last year's. The director, Mr. Hoemke's goals for this year were to improve community and school awareness, and audience attendance.

Besides the bands' school concerts, they did a lot of community type programs; they played for clubs, groups, and other schools. They were also the host for the District Band and Orchestra Festival.

New Course in Gym

Physical Education is something we all need more of, and the gym teachers at FHS made sure we got it.

Something new this year was the Health Class taught by Mr. Davis for the ninth grade. It included basic first aid skills, CPR, family living, mental health and sex education.

Mr. Catherman, department head, tried to provide the opportunities to exercise in an atmosphere of fun with proper equipment, supervision and progressive instruction.

Science deals with life, death, and what things are made of and how they exist.

The Science Department introduced two new classes to their curriculum. They are Earth Science for the ninth graders and Human Anatomy.

They also had some additions to their staff, Mr. Curp, Mr. Krupka, and Ms. McAdaragh.

With the additions the Science Department made this year, they continued to try to offer modern courses to keep the students' interest.

Lookin' Back

Bob Seeger

The History Department consisted of eight teachers this year with a complete and wide range of courses in World and American histories. There were two new teachers this year, Mr. Ray Lampi, from Dunckel Junior High, teaching World History for the ninth grade and Mr. Ed Davis from North Farmington High, teaching Government.

According to Mr., Beardsley, department head, Minorities, WWII and Contemporary Affairs seems to draw the most student interest. There was also a new course offered for the second semester, International Relations, taught by Mr. Young.

We All Learn

Headed by Mrs. Kissinger, this is a group that includes a number of very special students that attend FHS. Although they may have certain learning disabilities, they progress to the point where they graduate with the rest of their class.

Farmington High is very proud of the accomplishments these students make throughout the year and are also proud they are a part of FHS.

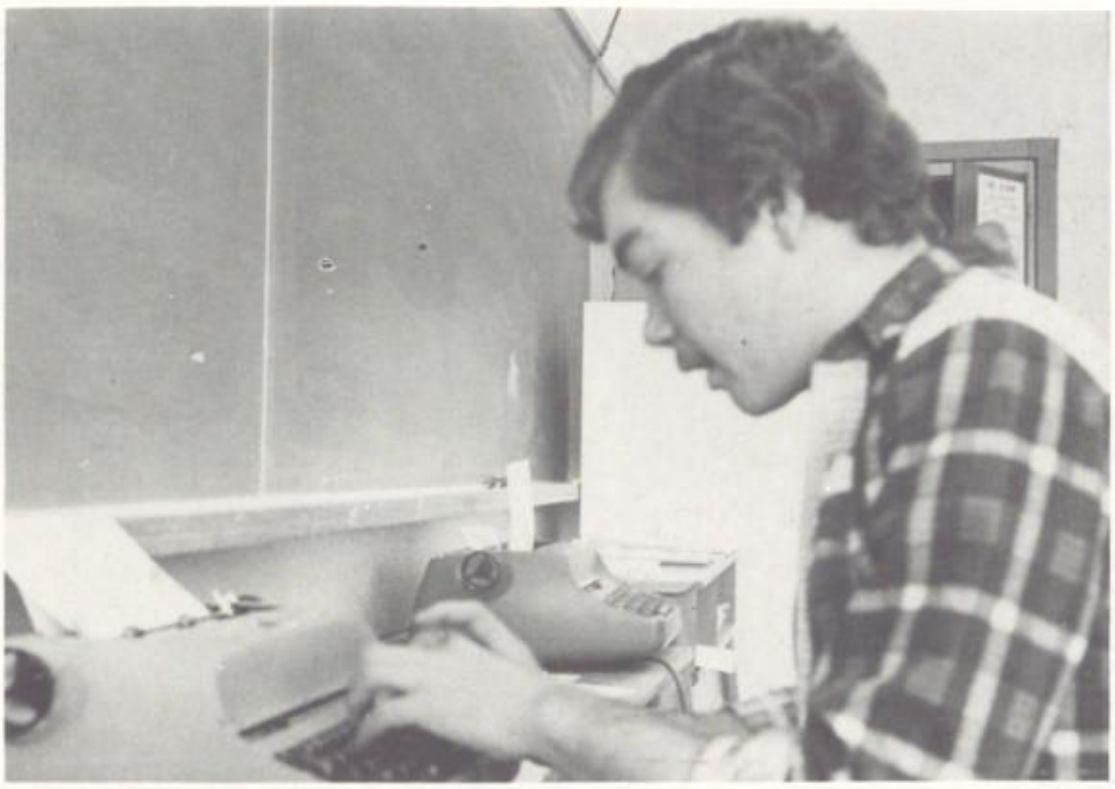
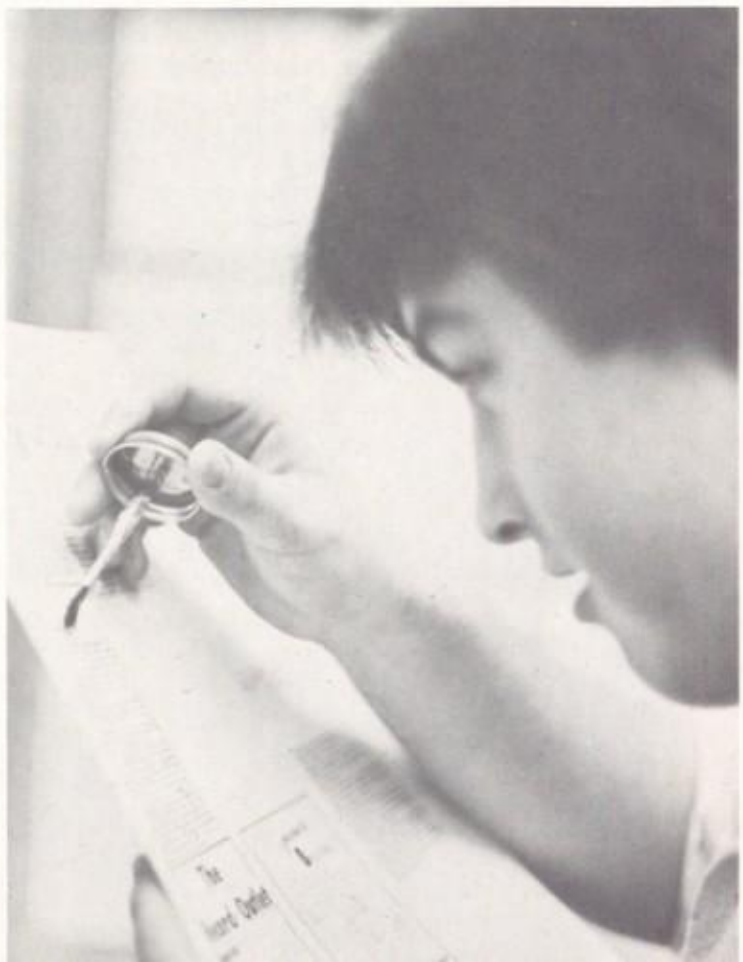
Blue & White News

This year the **Blue and White** introduced a totally new and different newspaper. It used smaller paper than in the past years, but included more pages, stories, and features then years before. Part of the reason for the change was the new journalism teacher, Mrs. Betty Martin.

For the first time ever the journalism staff used the FHS Print Shop for all their printing needs. It was less expensive, and it gave students in both printing and journalism classes more real-life experience.



Middle left, Editor Dan O'Donahue types a scoop. **Middle right,** Business Manager Tom Marra sets up advertisements. **Lower Left,** Steve Downey caught working for the first time. **Lower right,** Dave Garon pastes down his lines.



Book Design New

This year the 1981 **Rollcall** staff completely changed its format to present the best book ever. For the first time the annual book had an overall theme, division pages, copy and organized sections.

The book was larger than past years by approximately fifty pages. It included more color photographs and individual pictures of students instead of group photos.

Mrs. Betty Martin, formerly of Harrison High School, advised the two classes, but the students did most of the photography, all of the layouts, headlines and copy.

This Page, Upper Left, Editor Jean Zuhorski is busy at work on her football layout. **Upper Middle,** Brenda Lewis is caught working on cutlines. **Upper Right,** Sherri Belknap is taken by surprise by the camera man. **Bottom Right,** Paul Fazzini, Paul Reinhold, and Debbie Welch are fooling around again. **Opposite Page, Top,** Mrs. Martin smiles happily while looking at her Yearbook Class. **Top Left,** Colleen McDonald is working hard on her copy. **Top Right,** Lori Hall is interrupted while typing. **Bottom Left,** Colleen McDonald and Pam Bunch are working on their layout. **Bottom Right,** Layout Editor Vera Holdenberg works steadily to complete her work.

Start for the Future

The Southwest Oakland Vocational Education Center, S.W.O.V.E.C., is designed to give students training they need for employment upon graduation. It provides students career awareness, or just some background training.

The school serves eight different school districts. Some of the many various classes offered were: autos, drafting, medical, secretarial, food, floral, industrial, arts, greenhouse, cosmetology, and computer classes. These classes were offered in the morning, first through third hours, or extended day, sixth through eighth hour, (2 p.m. - 5 p.m.). Students get three credits per year. Students attending S.W.O.V.E.C. have had to take at least two classes at FHS. Most students find Voc. rewarding and a fun experience.

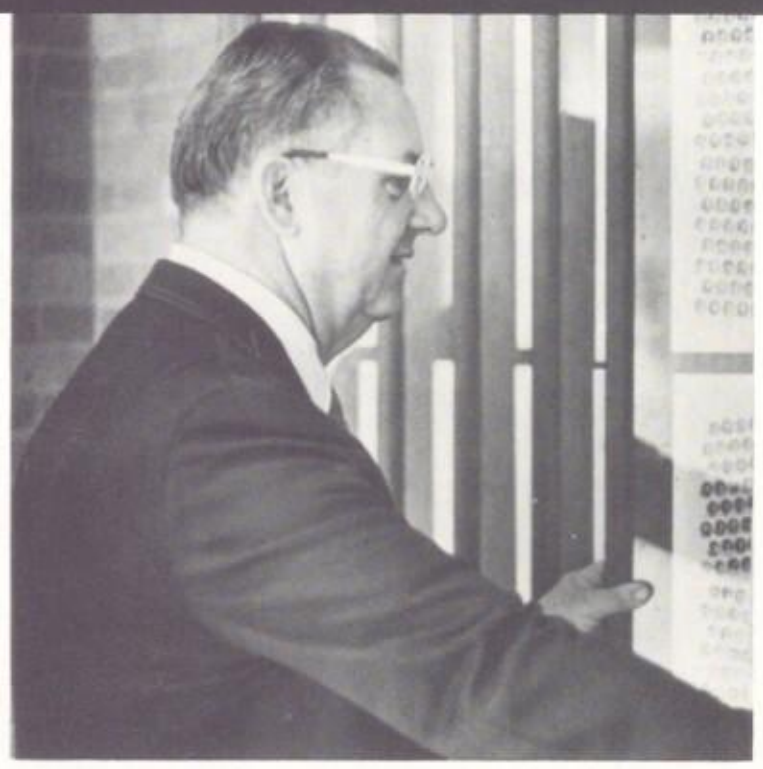
The Administrators Make New Changes



"F.H.S. students are the best students in the state. I wouldn't trade my top ten or bottom ten with any other school in our state."

Mr. Potter

"Each student must understand that he will benefit from the Farmington High School program only as much as he contributes to it."

Mr. Scobie

"The work of education is mainly to help students overcome obstacles to learning."

Mr. Shewbridge

"Education should develop to the fullest extent the capacities of every kind of student that we have."

Mr. Beckman

Wouldn't Want to be Like You

The Administrators are the law enforcers in a school. This year our administrators were Mr. Potter, Principal; Mr. Scobie, Assistant Principal; Mr. Shewbridge, and the newest member of the staff, Mr. Beckman.

They all had to get used to some new things this year, the parking and attendance policies, the ninth graders and the curriculum changes. Also they were trying to make improvements in the building and in the students attitude.

They each have their own important jobs, but together they make up the administration.

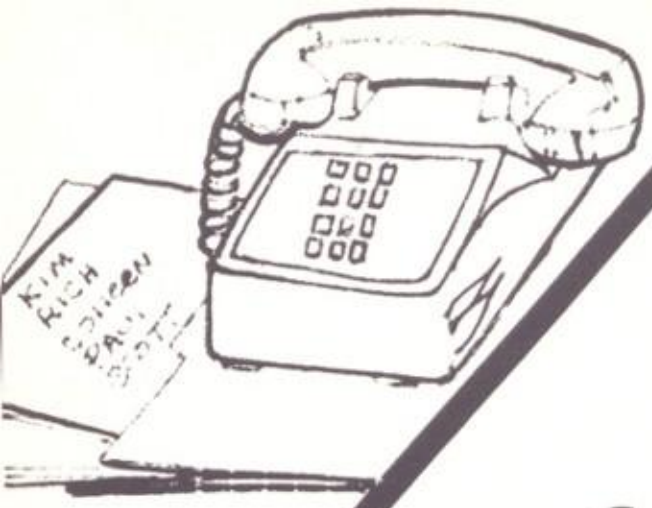
With A Little Help From My Friends

The Beatles

The counseling staff at FHS is one of the busiest organizations in the entire school. During the year their jobs are many and complicated. They give personal counseling, help students with scheduling, give referrals, and help many seniors with post-high school plans.

The counseling staff includes Mrs. Kalec, Mr. Hamway, Mr. Lekovish, and Mr. Whitledge. Each of them has special responsibilities such as SWOVEC, MOIS, and the counseling staff newspaper INFO 80-81. Mr. Hamway is the chairperson of the group.



Secretaries Keep School Running Smoothly

Celestial Voices

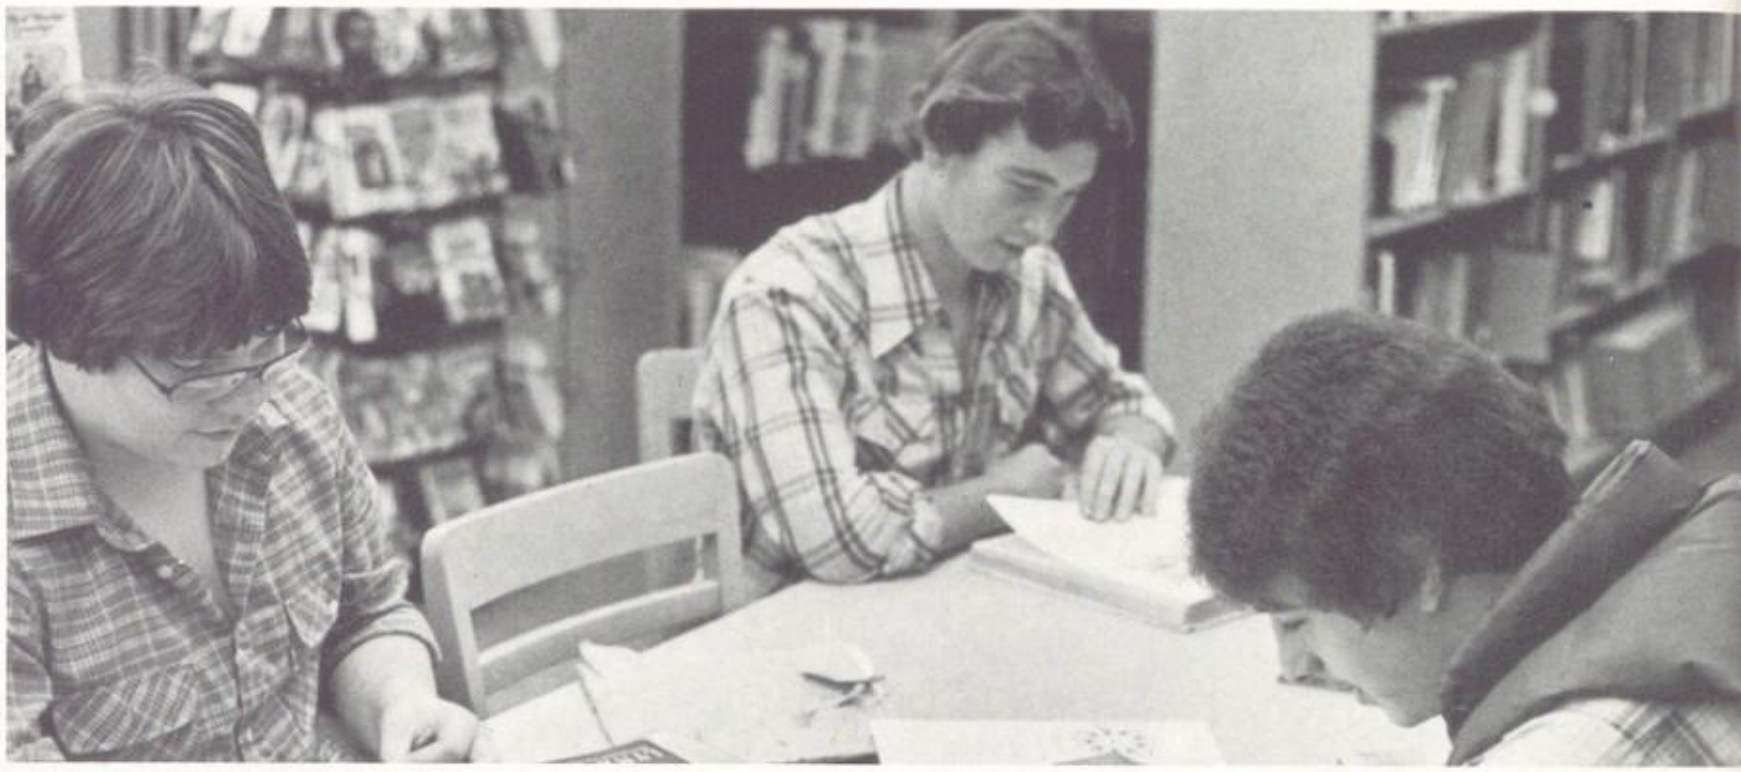
Rush

The secretaries in our building play an important role in keeping the students and faculty running smoothly. They keep the records straight, materials up-to-date and take care of student attendance. They like being secretaries in a school rather than an office because they like working with the students and staff and enjoy the variety of jobs.

With the new attendance and parking lot policies and an additional grade in the building, their work is a little different from last year. They had some extra work selling parking stickers, which cost ten dollars for the year, or twenty-five cents a day. The new attendance policy, (eight days to be absent before you are kicked out of class), is also requiring some extra work as the secretaries must make copies of and send warning letters home. So the secretaries do a lot more than we realize. The school couldn't function without them.

Opposite Page, Upper Left, Mrs. Olga Miller is happy to order new library materials. **Upper Right,** Mrs. Carol Benedict keeps student grade copies in order. **Lower Left,** The new attendance policy keeps Mrs. Dolly Shannon busy. **Lower Right,** Mrs. Annette Edwards keeps track of students' Co-op jobs. **This Page, Upper Left,** Ms. Alice Kangas tries to locate a student for an appointment. **Upper Right,** Mrs. JoAnne Stinchcomb busily concentrates on her work. **Lower Left,** Caught by surprise is Mrs. Judy Rentner.

Library Gets Tough on Students



Turn the Page

Bob Seeger

This year, the library changed its procedures somewhat from past years. All students were asked to use their I.D. cards when checking out books. This helped to discourage people from taking books, and it also helped to keep track of them.

The library continued to be in charge of the Audio-Visual system and Mrs. Prince worked full-time everyday to help get teachers' equipment to the right classes at the beginning of the hour.

This was also the first year the library organized the two-hour English/Library program. It was designed to help the ninth graders learn to use the various resources in the library.

The library is run by three very efficient ladies, Miss Cramer, the head librarian, who was new to the library this year; Mrs. Prince, who works with the AV equipment; and Mrs. Miller, secretary.

Opposite Page, Top, Bob Tudball, Jeff O'Malley, and Dave Peck study in the library. **Bottom Left,** Andy Hatton refuses to work. **Bottom Right,** Megan Cleary gets caught by surprise. **This Page, Top Left,** Head librarian, Miss Cramer, helps out a student. **Top Right,** Cathy Swing, one of the library aids, uses her time to study. **Bottom Left,** Sharon Cassie flashes a smile to the camera. **Bottom Right,** Mrs. Prince shows off some of our fine A.V. equipment.

A Team With Heart

The Debate Club consisted of mainly new members this year. Their topic for the year was consumer protection. The members had to do a lot of research, but they were rewarded for their efforts at a debate banquet where they received certificates, pins, or trophies. There was also an outstanding Debater Award.

Some of the frontrunners were: April Hartt, Kathy Richardson, Jean Zuhorski, Karen White, Ann Belobradich, and Andres Sempere.

Mr. Smith, the Debate Club's adviser, had this to say: "They were a great team: healthy, loyal, sincere, and good sports." His motto is: "Good eaters make good debaters," and according to him, they were good eaters.

Just Like the Real Olympics

The Special Olympics is almost like the regular Olympics. It is special in that it is for handicapped kids.

Their County Winter Games were in January, and they were held at Independence Oaks Country Park. Their track and field competition was held in May at Troy High School with such events as 100 meter dash, 200 m. dash, softball throw, and the frisbee throw.

For the state olympics the Farmington team joins with other teams and they form the Oakland County Team. They have their opening ceremonies and summer events in June at Central Michigan University. There are 150 competitors and they stay there for four days with all expenses paid including uniforms. The state Winter Olympics is held at Sugar Loaf ski resort in Traverse City.

Exchanging Activities Teaches

The Exchange Club's main purpose was to learn more about foreign countries. The activities the club's members participated in were related to other countries.

For example, the members went to a Greek and a Polish festival, raffled a quilt, had an International Christmas Party with all the language classes, and they also went to the Old World Market at the International Institute where they saw crafts and tasted foods.

The advisors, Ms. Jackson and Ms. Wildt, say their slogan is: The whole world's a circle.

The club tried to raise money to send someone as an exchange student to a foreign country. They believe we are all one.

"We would like to thank all the students, teachers, and administrators for making this year such a good experience and for making us feel welcome." Karin Pohl, Elli Paulsen, Andres Sempere, and Ralf Wagner.

A Club That Deals in Etcetera

This year a new club was formed called the Etc... Club. The two advisors were Mrs. Gearhart and Miss Pieron. The Etc... Club officers were President Loretta Salzano; Secretary Neil Trevisan; and Treasurer Linda Kielty.

The club members participated in a variety of activities such as a trip to Kyotes, a Chocolate night during which the club members made homemade chocolate desserts to sell the left-overs the next day in school. The members also participated in going to the Eastern Market, going to a theatre, and finishing the year off with a picnic.

The Etc... Club, proved popular with the students, and is expected to last for many years.

Forensics Team Tells Tales in Contests

The 1981 Forensics team this year was an exciting and fulfilling one. The group of students included 25 talented and interesting speakers. The group participated in invitationals, district and pentathalon contests. Chairperson was Sara Pittaway and co-chairperson was Kathy Richardson. Mrs. Van Horn and Mrs. Wildt sponsored the group.

Honor Society Group for Services

The National Honor Society is basically a service organization of 28 students. This year they organized with the Friendly Visitor Program which was developed to help lonely senior citizens by the Parks and Recreation department of Farmington. They worked with helping others enjoy life more with the help of concerned students. The honor society also offered tutoring services to all students at FHS, and they sponsored and planned the Sadies Hawkins Dance in March.

Dave Kamm was president, Sue Carruthers; vice-president, Pete Suh; treasurer, and Sue Murphy; secretary. Mrs. Mankus and Mrs. Kissinger sponsored the group.

German Club Is Very Active

The German Club is a club for anyone interested in German or Germany, Austria, or Switzerland. Some club members take a German class, but they are not required to.

The club is involved in various activities, some related to German, some not. Some of this year's activities included a German music and dance program, a trip to Frankenmuth, bake and strudle sales, field trips, and travel films on various places.

Ms. Harmala: "Clubs help to give identity to people." They give people something to be a part of and help people get to know each other. In this case it gave three of the exchange students a chance to meet more people and do some things that they had knowledge about.

During the Fall and Spring seasons, the club made trips to such places as Maybury State Park, Franklin Cider Mill, and Gallup Park. They even had a FHS "Bike Olympics."

The Cycling Club was sponsored by Miss M. Harmala. If they weren't bike riding, they were having fun participating in some other activity.

Science and Math Clubs have ...

The 1981 Math Club had a successful year. With Dave Stenson twelfth grade as President and Mr. Schaldenbrand as sponsors, the club raised a lot of money which they used for wider learning resources. The money was earned by the hard-working club members who sold candy, sausage and cheese.

The club was made up of mostly Advanced Placement students. They enjoyed many interesting guest lecturers and finally at the end of the year, they learned their multiplication tables.

Ski Club Starts Off Slow

The Ski Club got off to a slow start this year, but once they got going, things went along smoothly. There were eighty-five students in the club which made four ski trips to Alpine Valley and one trip to Caberfae for a weekend. There were five outstanding skiers this year: Glenn Padmos, Kevin Davis, Scott Chesley, Mark Richardson, and George Culik. The club also appointed a Ski Club Council consisting of Scott Chesley, Loni Shoup, Sue Klotz, Dave Hannah, Claudia Dettling, and Ken Griffith.

Student Council Plays Big Roll

The Student Council is made up of a group of senior officers elected to plan school activities, awards and ceremonies. They play a big role in running the school's government and make many important decisions affecting the students of FHS daily.

This year the council was made up of Mike Fraunheim, President; Barry Saeed, Vice President; Fred Ehlers, Secretary and Patty Rossman, Treasurer.

The constitution of FHS was revised and rewritten this year, which was only one of the main projects, along with many annual events like Homecoming, Student Elections, canned food drive, the hypnotist, talent show, faculty teas, and the blood bank.

Schools Combine for Great Concert

The Farmington High School Choirs are made up of a great bunch of enthusiastic kids who like singing and just having fun. This year the choir was directed by Mrs. Koltz. Candles and candy were sold by all the members to raise money for new robes and costumes. Harrison High and North Farmington High School choirs combined with the FHS choir to form a concert that was spectacular. They also competed in various competitions around the city of Farmington, and they went Christmas caroling through the halls of FHS before vacation.

Club Successful in Activities

The Art Club was new at Farmington this year. The club had fund raisers throughout the school year and ended up buying a movie camera and accessories to make cartoon movies.

With the money they hope to raise in the future, the new club plans to remodel the art room into an art studio with good supplies for advanced students.

In other activities they made a "Welcome Home Hostages" sign which was printed on the front of the Farmington Observer, and they went on field trips to various art galleries and institutes in the area. President of the club was junior Judy Dutton. Mrs. Heffernan was the advisor.

The participants had these comments to make: Wendi Tunison, "I think more people participated this year because the kids got to pick the themes." Paul Fazzini, "Kids really showed their spirit this year by dressing up and really getting into the act." Angela Gore, "I liked dressing up for Western Day; it was a lot of fun."

Homecoming '80, Smooth Sailing

This year the senior class of 1981 sponsored the Homecoming entitled "Sailing 1980." It was a very successful dance for the senior class. The band was The Sun Goddess.

The senior float came in first place as it did in the last two years. The theme for all of the floats was cartoons. The senior class used the Road-Runner with the slogan "We'll knock-em on their beep-beep."

Although the dance and parade were very successful, the football teams weren't. The varsity football team lost by one point for a final score of 21-22. The JV team also lost.

Football Team Gives 100%

The 1980 Varsity Football team started off to what everyone thought was a promising season. All of their games, except one against cross-town rival, North Farmington, were very close and the two games they did win were taken in overtime. They finished the season off, however, with a disappointing 2 and 7 record.

Disorganization and many injuries plagued the team with losses this season. Coach Hal Beardsley commented, "Even though the season was not as successful as we hoped, we were able to put a team on the field that gave 100% effort right to the end."

Seniors Jim Whitmore and Jim Steiner qualified for the Inter Leagues Conference. Steiner also set the record for the most tackles.

New Goals Met

Volleyball is the up and coming sport of the future. Farmington, in its own way, proved that to be true. From the first volleyball team up to today (a period of four seasons), "Farmington's style of play and performance has increased every year," said Coach Ron Shortt, Farmington's only volleyball coach. "They improve their record every year and accomplish the goals of the Farmington teams before them," also stated Coach Shortt.

The players were always faithfully supported by devoted parents and friends. Senior Brenda Looser held the teams together as captain.

Throughout the season the team suffered some absenses due to illness, but they still managed to make a respectable showing.

They finished the season recording ten wins and five losses under their belt. They placed second in their conference and have placed well in various tournaments throughout the season. The team reached the semi-finals in the district tournament, but lost to finish their season.

There are a lot of special people in the Junior Class. Each is special in his own unique way, and that's what makes our class special. The class is made up of many individuals, we don't necessarily have to go along with the crowd. Although there are some clicks, everyone seems to stick together in the end. Our friendships are strong ones, but our circle of friends is small. We will always remember our junior year as a year of accomplishment.

In the past year we can honestly say we have grown up. Some have grown more than others, but we have all grown up. B.H. & K.K.

Portrait of . . .

Chris Fournier, you're average student. You'd think she'd have no trouble handling a date, but she still gets flustered everytime a speciman of the opposite sex is supposed to use the Alexander Gram Bell invention.

a. Christine, known as Chris to her good friends, has been waiting by the phone for two weeks, three days, and five hours for Tim to call. As each minute goes by, she gets a little more worried.

c. Days later the phone rings ... "Hel-hel-hello," answers Chris. She's not a vocally disabled child, just suffering from the **I hope it's HIM** syndrome.

e. "Oh, hi Tim. How are you doin'? How'd you do on your geometry test today? That's good. So ... what have you been up to? ..." Chris occasionally has difficulty finding the magical words to say, but anything he says is better than a whole magic show.

g. Chris is emotion-full, ecstatic, and speechless.

i. This is Chris checking her schedule to see if she has time for the date. "One ... two ..." as she counts off a couple of seconds, she convinces herself she's not appearing too anxious.

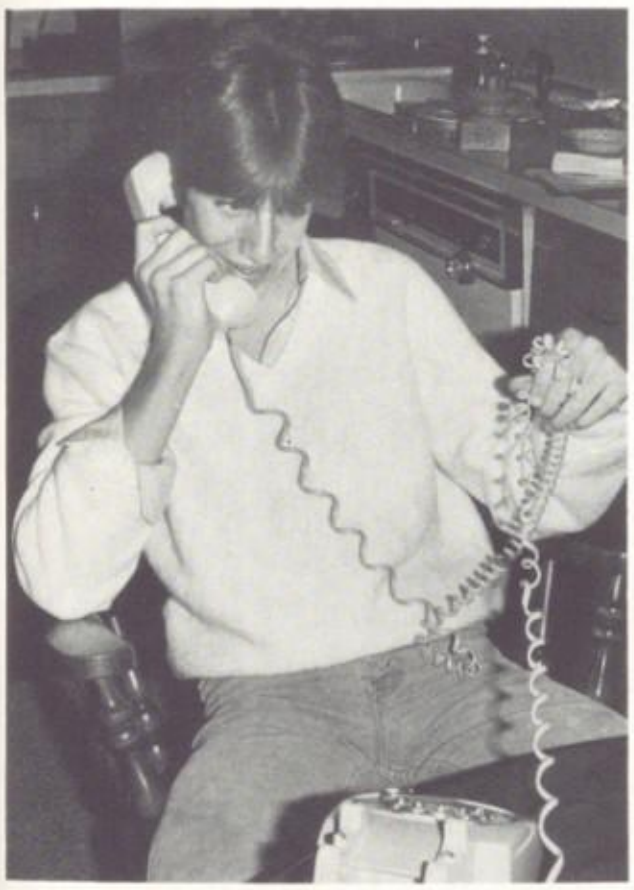
k. Tim, it looks like a great night to go out. What?? You want to know if it's okay if your dad drives to the movies, and your sister comes along!?"

m. Weeks later ... Tim and Chris are getting along great!

a Date

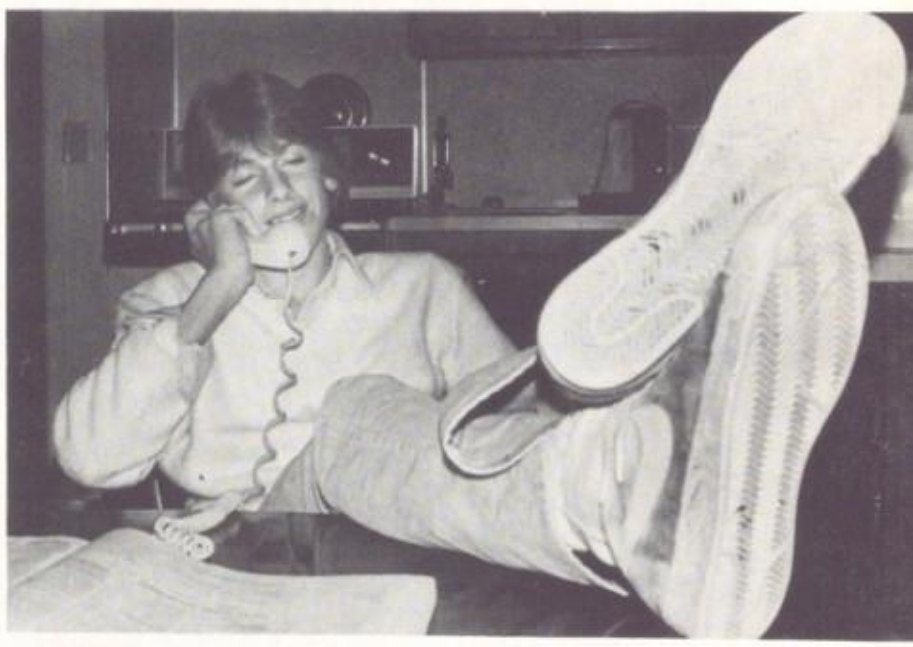
Tim Carruthers, the All-American man. Athletic, intelligent, and handsome. You'd think he's have no trouble asking a girl for a date, but it seems that the only walking his fingers do IS through the yellow pages, and not looking up a girls phone number.

b. Tim, sometimes called Timmy, has been walking in circles around the house ever since he decided he wanted to ask Chris out. He finally found the guts to open the telephone book and look up the number. Now all he has to do is use the line he's been practicing for the past two weeks. The one that goes, "Do you want to go out with me?" It's not very widely used.



d. "Hi, may I speak to Chris please? Confident, assertive, polite ... good work Tim.

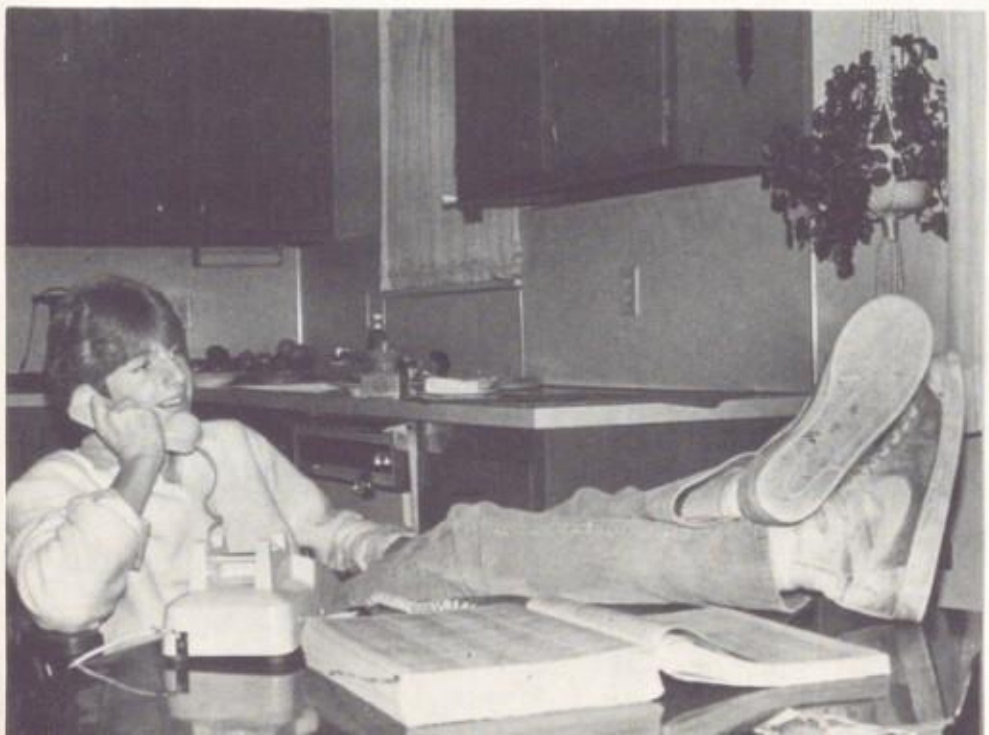
f. "I don't know. It was kind of hard." Tim's nervousness is really beginning to overtake the phone cord. "Well ... Chris, do you want to go see a movie or somethin' Friday night?"



h. "The Civic is showing a good movie, for a change." Tim feels that he can relax because at least she didn't hang up immediately after he asked the question.

n. Tim no longer has a problem when calling a girl. He doesn't even need a phone book for the number. He just hasn't found a way to get the cord off his hands.

j. This is Tim waiting. Ut oh ... he's started fiddling with his feet. A sure sign of nervousness.



l. 'Just kidding." Whoops, that joke didn't go over too well. "Well, that's great anyways, that you said yes!"

Behind the Fashions

Falcons are Wild and Crazy

Top left, The 1981 seniors show their spirit at a pep assembly. Diane Milhizer also relates what she believes the seniors are. **Top right,** Ho, ho, ho, Jack MacIntosh does his imitation of a cross between The Fonz and Santa Claus. **Bottom left,** Punk rock day found itself with a lot of wierdos roaming the school. Jean Zuhorski, Jane Ebel, Mara Shahinian, Kim Hinkle, Sue Murphy, Loretta Salzano, Pam Parker, and Laura Edwards decided not to dress up that day and just come to school as themselves. **Bottom right,** Greg Salzano and Pete Karadjoff wanted to know whether the Physic's class turkey was a boy or girl?

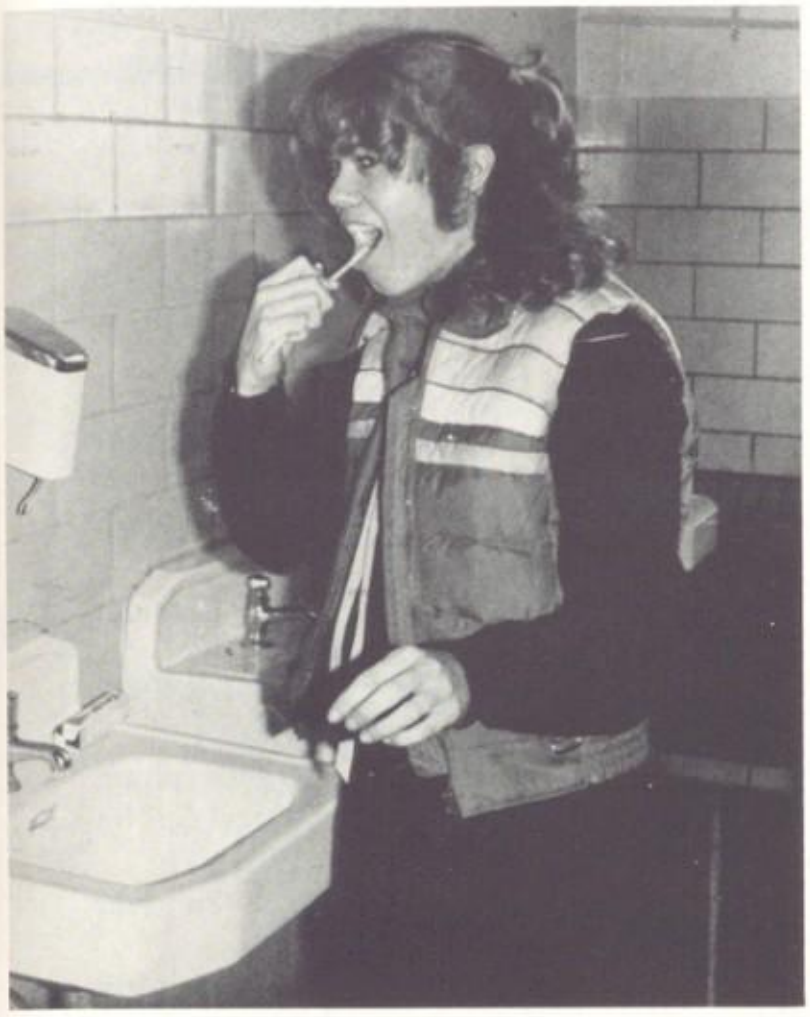
GIRL'S LOCKER ROOM



Opposite page, Top left, A normal day in Mr. Tom Krupka's class. It's just a class of real "bags." **Top right,** "Oh my nose. Oh my nose." Todd Smith worries that Marcia Brady won't go out with him that night because of his nose. **Bottom left,** Gloria Williams found a secret passage way to class. Not all of us can take this secret way. **Bottom middle,** Kevin Nichols tries to convince everyone that this method of getting rid of a headache "really works." **Bottom right,** Dave Majestic rests after an exhausting trip into the girls' locker room. **This page, Top left,** Missy Murphy, races to the bathroom to brush her teeth after lunch. "I wouldn't miss a brush," says Missy. **Top right,** "Ah HA! We caught you Shannon Catlett. You shouldn't impersonate a cheerleader, it's good for your reputation," screams Vera Holdenberg. **Bottom left,** Jane Ebel, were you playing in the snow again? **Bottom right,** Barry Saeed and Mr. Skewbridge pretend like they're not watching Fred Ehlers suck his thumb.
